

LCWD Outside Water Use Restriction

The Lynnfield Center Water District has a year round watering restriction. By order of the Mass Department of Environmental Protection, sprinkler use is permitted **5:00PM to 9:00PM on even numbered calendar days** only. A hand held hose may be used at any time. Violations of the restrictions are subject to a fine or fines. Excess watering outside of this time period causes low pressure affecting both Fire Protection and everyday use.

Further restrictions may be imposed by the Massachusetts Department of Environmental Protection and will be posted on the District web site www.LCWD.US and published in local newspapers.

Customers are cautioned that excessive outside water use will result in a very high water bill due to the tiered water rates that are intended to promote conservation per Mass DEP.
